## Grant Improves Water System in the Village of Trimble

The Village of Trimble (Athens County) will receive a grant to improve its water distribution system. The grant is through the Residential Public Infrastructure Program and funded by the Community Development Block Grant.

The village will receive a \$500,000 grant to replace approximately 24,671 linear feet of waterlines and 228 water meters. The improvements will benefit 214 households in the area.

“Reliable and safe water is integral to maintaining and strengthening communities in Ohio,” said David Goodman, director of the Ohio Development Services Agency.

The Residential Public Infrastructure Program is administered by the Ohio Development Services Agency’s Office of Community Development.
